Application No. 110/027,

Continuation of 2. NOTE: The new limitations to the claims would require further consideration and search. Since applicant's attorney failed to specifically point out support for the new limitations, it does raise the issue of new matter. .

Continuation of 5. does NOT place the application in condition for allowance because: The claims provides for the use of communication systems, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced. The claims are rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example Ex parte Dunki, 153 USPQ 678 (Bd.App. 1967) and Clinical Products, Ltd. v. Brenner, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966)..
